

The Platform Solutions Hands-On Series ePolicy Orchestrator 2 Day Training

PLATFORM SOLUTIONS

Over the course of our ePolicy Orchestrator 2 Day Training, Platform Solutions will prepare you to fully implement McAfee's ePolicy Orchestrator into your business environment. Your instructor is McAfee certified in ePO and has a minimum of five years of hands-on experience managing ePO in live business environments.

This accelerated 2 day course establishes a baseline transfer of ePO knowledge. You will learn what you need to know to install:

- ePolicy Orchestrator 4.5
- VirusScan 8.7i

Through our hands-on approach, you will learn by doing it yourself with guidance and direction from our certified experts. At the end of the course, you will have learned how to:

- Understand McAfee Anti-Virus
 - o What is a DAT?
 - o What is a SuperDat?
 - o What is a Stinger?
 - o What is an XDAT?
- Install and configure ePO software on one Microsoft® Windows® test server
- Establish a connection and database installed on Microsoft® SQL
- Deploy the ePO McAfee agent to one test workstation and one test server
- Install VirusScan 8.7i software into ePO
- Install McAfee Antispyware into ePO
- Create a baseline product policy
- Test virus detection policy enforcement on your test systems
- Configure ePO to receive and distribute
 - o Automatic DAT file updates
 - o Regular product updates
 - o Engine updates
- Configure ePO to enforce customized desktop security policies
- Leverage Webimmune

About Platform Solutions Training Services

Whether you are looking for in-depth technical training or personnel development courses, Platform Solutions offers a broad range of training solutions to meet your needs.

Our trainers can help you navigate our diverse course book, or help you customize a class to meet your specific requirements. We offer flexible classroom, remote and on-site delivery methods that can be formulated to work within the needs and budget of your organization.

The Platform Solutions Advantage *We Take IT Personally*

When you work with Platform Solutions, you work with a team. People you know....people who earn your trust. You have a dedicated account manager and technical team – and you'll have all their numbers. No bait and switch. No push off to inside sales. We hang our hat on customer success – and take IT very personally.

Platform Solutions specializes in designing, implementing, managing and optimizing solutions for your network and application infrastructure. From security and unified communications to virtualization and data center, we have exceptional practical knowledge and real-world experience, backed by third-party certifications.
